

OUR CONTRIBUTORS

Col Robert C. Owen (BA, MA, UCLA; MA, PhD, Duke) is chief of the Policy and Doctrine Division, Air Mobility Command, Scott AFB, Illinois. In that position he supervises the development and articulation of air-mobility concepts and doctrine and special projects, such as the command's involvement in the Expeditionary Air Force and Future Total Force Unit. When he was dean of the School of Advanced Airpower Studies at Maxwell AFB, Alabama, he directed the Balkans Air Campaign Study and later edited the report of that study, soon to be published by Air University Press. While he served as chief of the Joint Doctrine Branch of the Doctrine Division at Headquarters United States Air Force, he wrote the *Chronology* volume of the *Gulf War Air Power Survey*. He also has published a number of journal articles and has a book, *The Rise of Global Airlift in the USAF*, in final editorial review. Colonel Owen is a command pilot with over three thousand hours of operational flying in the C-130 and T-41 aircraft.

Dr. Colin S. Gray (BA, Manchester University; DPhil, Oxford University) is professor of international politics; director of the Center for Security Studies, University of Hull (England); European director of the National Institute for Public Policy, Fairfax, Virginia; and formerly the assistant director of the International Institute for Strategic Studies. He served for five years on President Ronald Reagan's General Advisory Committee on Arms Control and Disarmament. Dr. Gray has written 16 books and a major study on the future of aerospace power for Headquarters USAF, Director of Plans. He has also been published in *Airpower Journal*.

Maj Howard D. "Dave" Belote (BA, University of Virginia; MBA, Embry-Riddle Aeronautical University; MAAS, School of Advanced Airpower Studies) is chief of long-range strategy for the Seventh Air Force and the chief of the Air Component Command Synchronization Cell, Osan AB, Korea. Previously, he served as a fighter operations inspector in the Office of the Inspector General at Headquarters, Air Combat Command, and flew F-16s and F-111s in tours at Hill AFB, Utah, and RAF Lakenheath, United Kingdom. Major Belote is a distinguished graduate of both Squadron Officer School and Air Command and Staff College. His article "Paralyze or Pulverize? Clausewitz, Liddell Hart, and Their Influence on Air Power Theory" has been published in *Strategic Review*.

John B. Sheldon (BA, MA, University of Hull) is a doctoral candidate at the University of Hull (England), where he is researching the strategic theory antecedents and applications of space power. His bachelor's and master's degrees were, respectively, in politics and international relations and in security studies. He is a former member of the British Diplomatic Service.

Maj David M. Tobin (BS, University of Pittsburgh; MS, Air Force Institute of Technology) is chief of Space Integration Programs, Space Warfare Center (Air Force Space Command), Shriever AFB, Colorado. He has had a number of assignments involving research, development, test, and program management associated with a variety of aircraft, missile, and space systems. As chief, Mission Design Branch, Space Test Program Office, at Kirtland AFB, New Mexico, he led mission planning for over 30 Department of Defense space experiments. At Hill AFB, Utah, he directed and managed F-16 hardware, software, and munitions flight test programs; and he was the lead engineer at Newark AFB, Ohio, for depot-level test and repair of the Peacekeeper (MX) guidance system and inertial measure unit. Major Tobin is a distinguished graduate of Air Command and Staff College.

Lt Col Antulio J. Echevarria II (USMA; MA, PhD, Princeton University) is a speechwriter for the chief of staff of the United States Army. He has served in the "Army after Next" project at Fort Monroe, Virginia; in Squadron S-3 at Fort Knox, Kentucky; as an assistant professor at the United States Military Academy; as an armor company commander in the 4th Infantry Division; and as an armor platoon leader in the 3d Infantry Division. The author of a number of articles on military history and theory in a variety of periodicals, Colonel Echevarria is currently working on a book that offers a revised interpretation of military theory before World War I.
